Hand Engraving on Glass SUPPLY LIST

- Electric drill, you can find many online. I use a Proxxon drill.
- Stabilo-All 8046 pencil to write on glass (not strictly necessary but it is helpful for dark glass)
- Gilding wax, I use the Pebeo brand but Rub n Buff might be more common in the US.
- A face mask, a disposable one is fine but the better the mask the less dust you might inhale.
- I use vinyl gloves too, it is important to be protected when we engrave glass.
- Kitchen paper towels and a spray bottle filled with water to clean the glass.
